

## Dept. of Public Administration

Contemporary governments have faced a number of vexing public policy problems in the development of scientific technology and information society and local self government. The Department of Public Administration has been dedicated to provide outstanding programs corresponding to various demands for public management and public policy. Its curriculum ensures that all graduates understand the political, economic, and social context of public administration; achieve substantial competency in management techniques; and gain experience in applying qualitative and quantitative analysis to public policy issues. In recent years, governments, nonprofit and private employers need highly -skilled, well -trained public policy analysts and administrators. Many of our graduates hold leadership positions across the spectrum of public, nonprofit, and private organizations.

The Department of Public Administration provides Master degree, Ph.D. degree, and unified both Master and Ph.D degree course. The Master course is divided into two majors, public administration and public policy, both of which focus on basic knowledge and skills for Ph.D. course. The Ph.D. course intends to provide leading scholars and policy specialists that can competently and effectively deal with a variety of public administration and policy problems.

### **Public Administration Major**

The Public Administration Major is designed to explore the theory and practice associated with management of public programs in central and local government. This major offers a variety of courses relating topics and issues in efficient and effective management of public affairs such as organization theory, human resource, public finance, strategic performance, public marketing, resource allocation and local administration. It serves students to pursue their academic and practical career goals in the department of public administration, research institute, central and local government and other public institutions.

### **Public Policy Major**

Contemporary government, nonprofit as well as private institutions and organizations confront a wide variety of complex public policy problems in the 21<sup>st</sup> century. The public policy major program provides both a comprehensive knowledge on policy studies and learning opportunities to master analytical skills. At the end of day, students can be high-skilled and well-trained public policy professionals who can dissect a problem, analyze and interpret both quantitative and qualitative data, and evaluate and craft concrete solutions.

**Courses**

**Core Courses**

• **Theories of Public Policy (3)**

Theories of public policy provide an introduction to general theories in public policy and basic knowledge required for specific policy fields. The course particularly covers some assumptions and applicability of prescriptive and descriptive theories to public policy issues.
