

Dept. of International Trade

The department of international trade offers international trade related courses such as microeconomics, macroeconomics, international trade theory, international trade policy, international finance, and econometric analysis. In addition, the department offers various courses that respond to the various social and academic needs.

The department of international trade tries to train experts in international trade areas using programs that help students to acquire the necessary knowledge and skills at the graduate level. The department offers an integrated master's and PhD degree program, in addition to the existing master's and PhD degree programs, in order to further strengthen the academic area as well as to respond to the various demands for graduate level education.

In the integrated master's and PhD degree program, students are required to choose a master's or a PhD degree upon the completion of the first year courses. For students who choose a master's degree, the department offers career related programs in the second year to help them to find employment. For students who choose a PhD degree, the department provides in-depth academic training to help them to become international trade experts who can publish in domestic and international journals.

☐ International Trade Major

Students study international trade theories and international trade policies in depth. Based on the international trade theories, applied subjects such as economic integration and economic developments are also examined in this major.

☐ International Finance Major

The purpose of this major is to investigate the structures and price determinations of international financial markets including foreign exchange markets. The linkage between the domestic and international financial markets are also studied.

☐ Courses

☐ Core Courses

· Research Ethics & Thesis Study (3)

This course offers basic tools necessary for thorough analysis in business and economics. In this course students get acquainted with computing skills, essay writings, word processing skills, Excels, and so on.

- **International Trade Policy (3)**

- **Industrial Economics (3)**

This course aims to familiarize students with current theory and empirical method in Industrial Economics.

- **Seminar for M.A. Students (3)**

This course is designed for M.A. students who want to obtain knowledge in themes in Economics. Various topics may be covered by experts from outside the University.

- **Advanced Seminar for M.A. Students (3)**

This course is designed for M.A. students who want to obtain knowledge in Advanced themes in Economics. Various topics may be covered by experts from outside the University.

- **Topics in Master's Thesis (3)**

In all cases the thesis topic must have been formally submitted to and approved by a thesis advisor.

- **Master's Thesis Guidance (3)**

In all cases the thesis topic must have been formally submitted to and approved by a thesis advisor.

- **Seminar for Doctoral Students (3)**

This course is designed for Doctoral students who want to obtain knowledge in themes in Economics. Various topics may be covered by experts from outside the University.

- **Advanced Seminar for Doctoral Students (3)**

This course is designed for Doctoral students who want to obtain knowledge in Advanced themes in Economics. Various topics may be covered by experts from outside the University.

- **Topics in Doctoral Thesis (3)**

In all cases the thesis topic must have been formally submitted to and approved by a thesis advisor.

- **Doctoral Thesis Guidance (3)**

In all cases the thesis topic must have been formally submitted to and approved by a thesis advisor.

❑ **International Trade Major**

• **Advanced International Trade Theory (3)**

This course provides an advanced treatment of theories of international flow of goods and services. Major focus of the course is on the determinants of international trade patterns.

• **Seminar in Commerce (3)**
